Executive Secretary

January 1, 1982

Members of the General Assembly
State of Missouri

Ladies and Gentlemen:

The State Board of Education herewith submits its One Hundred Thirty-Third Report of the Public Schools of the State of Missouri. This report, prepared in compliance with Section 161.092, Missouri Revised Statutes, covers the school year ending June 30, 1982.

We hope the information contained in this report will be of interest and assistance to you as you consider the needs and major problems of the public schools of the State of Missouri.

Respectfully,

Jimmy Robertson
President, State Board
1981-82

STATE BOARD OF EDUCATION

COMMISSIONER OF EDUCATION
Arthur L. Mallory

- Administrative Assistant to Commissioner — Robert E. Bartman
- Public Information — James Morris
- Internal Auditor — James R. Bowers

DEPUTY COMMISSIONER
William J. Wesson

- School Laws — Jack Roy

ADMINISTRATION
John E. Moore, Jr.

- School Finance — John Alberty
- School Food Services — Wilbert Grannemann
- School Building Services — Howard L. Miller
- Dist. Reorg. and Pupil Trans. — W. E. Haynes
- COORDINATOR-MIS — John F. Allan
  - Data Processing — W. Eugene Dobbs
  - School Data — Bertha McClaskey
- Personnel — Mary Bowers
- Budget — Wayne Nations
- Procurement and Contracting — Carl Rutledge
- Accounting — Dave Vanderfeltz

INSTRUCTION
P. J. Rowell, Jr.

- Supervision of Instruction — Richard Phillips
- Gifted & Alternative Programs — Robert P. Roach
- COORDINATOR-Curriculum — Richard L. King
  - Curriculum Dissemination — Marron Solomon
  - Curriculum Development — Grace H. McReynolds
  - Early Childhood Education — Mildred M. Winter
  - Health, P.E., and Safety — Robert Taylor
- COORDINATOR-State and Federal Programs — Otis Baker
  - Chapter I, ECIA — Burrill Laney
  - Chapter II, ECIA — Thomas A. Odneal

CAREER AND ADULT EDUCATION
Frank Drake

- COORDINATOR-Vocational Educ.
  - Pupil Personnel Services
  - Business and Office Education — Charles A. Newman
  - Home Economics Education — Shirley Baugher
  - Agricultural Education — Larry Case
  - Industrial Education — Robert A. Robison
  - Vocational Finance — Charles Henry
  - Area School Services — Harold Lynch
  - Vocational Special Needs Progs. — Miles Beachboard
  - Coop., Indus., and Dist. Educ. — Jack Bitzenburg
  - Research Coordinating Unit — Delbert Lund
  - Vocational Planning — David Harriman
  - Special Vocational Services — Georgeanne Hargadine
- COORDINATOR-Adult and Community Education — Bill J. Ghan
  - Adult Education — Elvin Long
  - Manpower Training (C.E.T.A.) — Robert Asal
  - Veterans Education — Paul Smelser

SPECIAL EDUCATION
Leonard W. Hall

- Special Education Administration — Graham Williams
- Special Education — Delores John
- School for the Deaf — Peter H. Ripley
- School for the Blind — Louis M. Tutt
- State Schools for Severely Handicapped — John B. Haskett
- Sheltered Workshops — Otis E. Thompson

URBAN AND TEACHER EDUCATION
Albert L. Walker

- Teacher Certification — R. V. Wilson
- Technical Assistance Unit — Linda Wyatt
- Urban Education — Joan Solomon

VOCATIONAL REHABILITATION
Don L. Gann

- COOR.-Vocational Rehabilitation — August Heinemann
  - Field Operations — James Springs
  - Allied Services — Merrill Sindt
- COOR.-Disability Determinations — James Harding
  - Management & Program Appraisal — Neil Scully
  - Operations and Training — Frank Jost
  - Administrative Services — Frank Lloyd
  - Personnel and Training — Ronald Vessell

Commissioner of Educaton

Linda L. Ward
Secretary, State Board of Education

The State Board of Education was established in its present form by the Missouri Constitution of 1945. The State Board of Education consists of eight lay citizens appointed by the Governor with advice and consent from the Senate. Article IX, Section 2(a) also states that no more than four members of the Board may belong to the same political party. State Board members are appointed for eight-year terms which are arranged so that only one term expires each year. The Board elects its own officers.

The responsibilities of the State Board of Education extend from preschool through post-secondary and adult education programs. These responsibilities include:

- Establishment of policies for the leadership, service and regulation of public education. These policies are administered by the Missouri Department of Elementary and Secondary Education.
- Operation of the State School for the Blind and the State School for the Deaf.
- Operation of State Schools for Severely Handicapped Children.
- Classification of schools and certification of teachers.
- Administration of vocational education, vocational rehabilitation and veterans' education programs.
- Administration and supervision of programs under the Elementary and Secondary Education Act of 1965 and other Federal programs.
- Apportionment of state moneys.
- Publication of laws relating to schools.
- Collection and publication of information which reflects continuously the condition and management of the state's public schools.

Part I

Report of the Year Completed

The Year in Review

By Arthur L. Mallory
Commissioner of Education

Ralph Waldo Emerson pretty well summed up the mood among school officials across Missouri during 1981-82 when he said: "Can anybody remember when the times were not hard and the money not scarce?"

The times **were** hard in general because of the economic recession which affected Missouri and the entire nation. And for Missouri's public schools in particular the money was as scarce as it had been any time during the past decade. Thus, it's not surprising that financial concerns and problems were at the top of the "education agenda" during 1981-82. For example:

- According to a special survey conducted by the Department of Elementary and Secondary Education during August of 1981, school districts indicated their overall spending would increase very little, if any, during 1981-82. School districts also estimated they might spend as much as $70 million from their reserve funds to make up for the slow growth in state and local revenues.
- There was great uncertainty about the status of federal funds and what impact the proposed "block grant" funding system would have. The only major cutbacks in federal aid during 1981-82, however, were in the school food service program. Because of reduced subsidies, the average price of a school lunch in Missouri increased sharply during the year and participation by students decreased.
- State-level spending cuts affected many programs, and state aid payments to local school districts were delayed for several months.

In July of 1981, Governor Christopher Bond vetoed or withheld about $95 million in funds which had been appropriated for fiscal year 1982. All state agencies were ordered to cut spending for the year by 10 percent. It was an unpleasant step, but the governor had no choice but to order reductions in order to maintain a balanced state budget. The reductions totaled about $1.9 million for the Department of Elementary and Secondary Education. The major portion of state aid to local schools—the foundation program—was exempted from the governor's cutbacks, though.

Most of the state-level reductions were absorbed by the State Schools for Severely Handicapped, the Schools for the Blind and Deaf and the Division of Vocational Rehabilitation. (These programs rely most heavily on state general revenue, the only funds affected by the governor's cutbacks.) The cutbacks did affect some vocational aid received by local schools, though.

- The major problem for school districts was the delay of scheduled payments of foundation program aid. Because of cash-flow problems at the state level, more than $100 million in foundation program payments was delayed during the year. Schools finally received their full apportionments, but special legislation authorizing an extra payment (in June of 1982) was required to enable school districts to receive all the state aid they had been anticipating. One of the major effects of the slow-down in state aid payments was that many school districts were forced to borrow money or to borrow more than usual.

State Board Adopts 3-Year Budget Plan

Despite the gloomy financial outlook at the state level, the State Board of Education took an aggressive position in calling for increased state aid for local schools. In September of 1981, the Board adopted a budget request (for fiscal 1983) calling for a three-year effort to boost state aid through the foundation program by about $340 million. This ambitious proposal went well beyond the Board's usual one-year budget proposals which are submitted annually to the governor and legislature. The Board requested an increase of almost $102 million in the foundation program during 1982-83 as the "first installment" of the proposed three-year plan. The Board's recommended plan had three initial goals:

- To raise Missouri's average salary for teachers to the national average. At the beginning of the 1981-82 school year, Missouri's average teaching salary was more than $2,000 below the national average.
- To increase the state's share of funding current education costs.
- To maintain pupil-teacher ratios statewide at their current levels.

"Teachers' Salaries and School Finance" was one of the formal priorities adopted by the State Board of Education for 1981-82, and the Board emphasized the theme of teachers' salaries throughout the year. To stress the need for improved teachers' salaries and to illustrate the Board's concern in this area, the Department published a booklet entitled *Missouri Teachers and Their Salaries: Statistics & Trends.* Although quite small, the booklet provided all the "vital statistics" about Missouri teachers and their salaries, the declining supply of new teachers, and the gap between Missouri and the rest of the country in terms of salary.

The Board's three-year budget proposal was formally endorsed by a coalition of educational organizations during February of 1982. Because of the state's poor financial condition, the $102 million increase requested for fiscal 1983 was not appropriated by the General Assembly. Instead, the legislature authorized an increase of about $26 million for the 1982-83 school year. It was significant, however, that all of the major (and often competing) educational organizations could agree to support the State Board's ambitious school finance recommendations.

The cooperation of those groups also contributed to one of the financial bright spots of 1981-82: passage of an increased tax on cigarettes to benefit schools. During 1982 the General Assembly approved a 4-cents-per-pack increase in the state cigarette tax (above the previous 9-cent level). That increase went into effect August 13, 1982. The proceeds—an estimated $20 million during the first year—must be spent by local schools to improve teachers' salaries.

Throughout the 1981-82 school year, the Missouri State Teachers Association also worked to gather signatures on a petition which would allow voters to decide whether the state sales tax should be increased by one cent to benefit public schools. The idea of a sales tax was defeated in the legislature during 1981. As the 1981-82 school year drew to a close, however, it was uncertain whether the petition campaign would be successful.

The sales tax idea was originally developed by the School Finance Study Committee, appointed by the State Board of Educaton in 1980. The Board endorsed the sales tax proposal because of the significant amount of new revenue it would provide for local school districts (primarily for teachers' salaries) and because of the property tax relief it would provide citizens throughout the state.

Amendment 4 Fails

In August of 1982, Missouri voters defeated a proposal which might have benefited many school districts in the state.

Senate Joint Resolution 30, approved by the General Assembly during its 1982 session and formally endorsed by the State Board of Education on June 17, was submitted to Missouri voters as "Amendment 4." It appeared on statewide primary ballot, August 3.

Amendment 4 would have raised the amount of tax levy which could be approved by simple majority in local school districts. The measure was defeated, however, by almost a 2-to-1 margin.

Amendment 4 would have revised the basic tax levy which, according to the constitution, local school boards may establish. This basic tax rate of $1.25 may be set without a vote by residents of the school district. Up to three times the basic rate, or $3.75, may be levied with approval by a simple majority of school district patrons. Anything above $3.75 requires a "super majority"—approval by two-thirds or more of a district's voters.

The State Board of Education endorsed Amendment 4 because the basic tax rate of $1.25 has not changed since 1966 and is outdated. More than 300 of the state's school districts needed two-thirds majorities for any increase in their operating levies at the time Amendment 4 was considered.

A statewide coalition of educatonal organizations mounted a small campaign to promote Amendment 4, but it had little impact. The measure passed in only one county.

Early childhood educaton is another area in which important strides were made during 1981-82. To me, early childhood education is one of the most exciting areas in education today. We are finally realizing how crucial the early years of life are to human growth and development and what tremendous potential there is for improving the quality of life through early childhood and parent education.

Children's academic success and social development depends largely on what happens during the years before formal schooling begins. Finding ways to work together with families during the preschool years is an exciting challenge for public schools today and in the future. Improving early childhood education is perhaps the most important thing we can do to improve children's chances for success in school, to reduce the need for special education, and to reduce the dropout and delinquency rates among young adolescents.

Schools are discovering there is a great demand for expanded day care, screening services for young children and educational services for families. Such service not only meet the needs of families and communities, but also complement the traditional educational program in public schools.

Because of the growing importance of early childhood education and expanded services for young parents, I'm especially pleased by the two special projects which the Department of Education was able to organize during 1981-82 in cooperation with a number of school districts. These programs, under the direction of two acknowledged leaders in the field, Dr. Burton White and Dr. David Weikart, are designed to demonstrate the effectiveness of two innovative approaches to early childhood and parent education.

A more detailed description of these programs—"New Parents as Teachers" and the "Cognitively Oriented Curriculum"—is provided in the following article about the State Board of Education's priorities for 1981-82.

"BEST" Results for Missouri Eighth Graders

STATE-SCORED TEST	PERCENT PASSING			
	78-79	79-80	80-81	81-82
Reading/Language Arts	89.1	92.2	91.5	93.8
Mathematics	72.8	75.0	72.9	82.9
Government/Economics	77.5	72.1	82.3	85.0
All Three Subests	65.2	63.6	67.5	76.5
At Least One Subtest	92.0	93.8	93.4	95.7
LOCALLY SCORED TEST				
Reading/Language Arts *% of students passing 8 locally administered Reading objectives*	65.4	70.6	77.0	78.0
Mathematics *% of students passing 2 locally administered Math objectives*	77.3	82.5	85.4	86.4

Positive Signs

The 1981-82 school year was not devoted exclusively to financial issues. In fact, school administrators across the state reported that it was a "very good year" despite the economic difficulties. There were a number of encouraging signs that our public schools are getting better, even though many schools are plagued with serious financial problems.

The accompanying chart, for example, shows that the scores of Missouri eighth graders increased in 1982 on the Basic Essential Skills Test (BEST). The 10-point jump in the score on the mathematics subtest is especially encouraging. In the four years since it was instituted by the State Board of Education, the BEST has encouraged school districts throughout the state to place greater emphasis on basic academic skills, and that emphasis is now paying off.

I was greatly impressed with the positive response by citizens and educators to the State Board of Education's emphasis on the "Instructional Management System" concept during 1981-82. Participation in workshops and other professional activities conducted by the Department of Education, plus the strong interest expressed by citizens during the Regional Educational Conferences, showed there is strong support for a statewide effort to institute curriculum reforms and to improve academic achievement. At a time when financial problems forced almost all school districts to set new priorities and concentrate on "the basics," the IMS concept proved quite timely.

In my comments during the Regional Conferences, I emphasized that the only way for us to deal with all the complex issues confronting public education today is to focus on the "least common denominator." In our country, the public schools are the common denominator for all people and for the ideals we strive to achieve. For us, as educators, the least common denominator is to teach basic reading and arithmetic skills effectively in the primary

grades. The Instructional Management approach, I'm convinced, is the most practical way for schools to achieve that goal. We know the techniques of Instructional Management can produce significant gains in student achievement, and many school districts across the state began efforts to implement the IMS concept during 1981-82.

The state-level emphasis on the IMS concept is not a "fad." It is going to gain momentum, and I expect this effort to pay handsome dividends in the future.

With the beginning of the campaign to launch the "IMS" approach, the state-level emphasis on improving teachers' salaries, exemplary programs in early childhood education, and other initiatives, the 1981-82 school year saw important steps made in the effort to make the decade of the 1980s the best in the history of Missouri's public school system.

W. Hubert Wheeler, former Commissioner of Education for Missouri, died at his home in Jefferson City on September 2, 1981. Mr. Wheeler was the first Commissioner of Education appointed by the State Board of Education, following the Constitution of 1945. Previously, the chief state school officer's post was an elected position. Mr. Wheeler served as Commissioner of Education from January 1947 until his retirement in December of 1970.

1981-82 Education Statistics in Brief

Number of Public School Districts	547
Fall Enrollment	
High School Districts	
K-8	541,468
9-12	265,693
Elementary Districts (K-8)	11,544
State Total (K-12)	818,705
High School Graduates	59,872
Number of Staff	
Classroom Teachers	52,728
Supervisors	519
Principals/Assistant Principals	2,360
Superintendents	450
Assistant Superintendents	157
Total of all Staff	56,214
Average Salaries of Staff	
Classroom Teachers	$16,673
Supervisors	$23,941
Principals/Assistant Principals	$25,968
Superintendents	$30,893
Assistant Superintendents	$36,874
Average of all Staff	$17,301
Current Expenditures by Districts	
State Total	$1,670,933,209
Current Expenditures Per Pupil in ADA*	
Elementary Districts	$1,939.39
High School Districts	2,283.45
AAA	2,320.57
AA	2,158.12
Unclassified	2,356.16
Total/All Districts	2,276.33
Average School Tax Levies	
High School Districts	$4.25
Elementary Districts	3.99
Average for All Districts	4.21

Average Daily Attendance

Highlights of 1981-82

During its October 1981 meeting at Jefferson City, the State Board of Education proposed a three-year effort to increase state financial aid to local schools. Included in the plan was a recommended increase of almost $102 million for the foundation program during the 1982-83 school year. Going beyond its usual one-year budget recommendations to the General Assembly, the Board called for an overall increase of about $340 million in state aid over a three-year period. The primary goal of the Board's proposed plan: to boost the average salary of Missouri teachers to the national average. The state average salary for teachers was about $2,000 below the national average at the time

Thirteen statewide education organizations joined in calling for increased state support for public education. The groups signed a joint resolution during a press conference in the Capitol rotunda, Februrary 15, 1982. In adopting the resolution, the groups endorsed the State Board of Education's three-year budget proposal and a proposed increase in the state tax on cigarettes.

Representatives of the following organizations signed the resolution: Cooperating School Districts of Suburban St. Louis; Cooperating School Districts of the Kansas City area; Missouri State Teachers Association; Missouri National Education Association; Missouri Federation of Teachers; St. Louis Public Schools; Kansas City School District; American Association of University Women; Missouri PTA; Missouri Association of School Administrators; Missouri School Boards Association; Missouri Association of Elementary School Principals; Missouri Association of Secondary School Principals.

The resolution shows that "the financial needs of our schools are a common concern for professional educators and for taxpayers who have a stake in the quality of public schools," said Mrs. Freddie Nichols, Gladstone, president of the Missouri PTA. "Second, it signifies that all of the major education organizations can work together," she added.

A 21-member advisory committee was appointed by the governor to assist with implementation of the federal "block grant" which went into effect July 1, 1982. This photo shows the committee meeting during March, 1982.

Because of the spreading shortage of qualified mathematics teachers, the Department of Elementary and Secondary Education took the lead in organizing two special institutes to retrain teachers for mathematics. The two programs, conducted during the summer of 1982, were held at Northeast Missouri State University (Kirksville) and Southwest Missouri State University (Springfield).

Twenty teachers took part in the institutes. Already certificated as teachers, the participants received 11 hours of college credit, enabling them to qualify for temporary certificates to teach mathematics at the junior high level. With a similar intensive program during 1983, they could qualify for permanent certification in mathematics.

Ronald Edmonds, a leading researcher in the area of "effective schools," was a featured speaker during the Cooperative Conference for School Administrators. This statewide meeting of school superintendents and other administrators was sponsored by the Department of Elementary and Secondary Eductaion, August 9—10, 1981.

A professor at Michigan State University's School of Education, Edmonds worked at the Harvard Graduate School of Education from 1973—77 where he conducted the "Search for Effective Schools," a massive research project sponsored by the Carnegie Corporation. His findings about the distinguishing features of "effective schools" have been reported widely in professional and popular literature, and he has worked with a number of school systems in Missouri on school-improvement programs.

About 250 teachers, principals and superintendents from school districts throughout the state took part in special "IMS Leadership Training Institutes" conducted by the Department of Elementary and Secondary Education during June and July, 1982. The intensive, week-long institutes concentrated on practical ideas for implementing the instructional Management System (IMS) concept, a priority of the State Board of Education.

The institutes were a unique approach to in-service training for local school personnel, involving the state education agency and universities. The three programs were conducted in the laboratory schools at Southeast, Southwest and Northwest Missouri State Universities. Thus, the participants had an unusual opportunity to observe and practice new instructional techniques in a realistic setting, working directly with students and teachers in the lab schools.

Gale Bartow, supertintendent of the Blue Springs R-IV School District (Jackson County), was chosen president-elect of the American Association of School Administrators (AASA). Dr. Bartow was installed March 20, 1982. He will become president of the national organization in March of 1983.

Barbara Giardina, an accounting teacher at Hazelwood East High School, was chosen to represent Missouri in the National Teacher of the Year program for 1981-82. Two runners-up for Missouri Teacher of the Year honors also were selected during October 1981: Mrs. Betty Chasteen, a teacher of gifted students in the Perry County School District, and Mrs. Ellen Gray Massey, a high school English teacher in the Lebanon R-III School District.

Barbara Giardina, a business and accounting teacher at Hazelwood East High School, was Missouri Teacher of the Year for 1981-82.

State education officials worked with developers of the nation's two best-known college-entrance tests during 1981—82 to establish new standards for prospective teachers in Missouri. During May of 1981, the State Board of Education adopted a policy requiring would-be teachers to pass proficiency exams before being admitted to professional teacher-education programs in the state's colleges and universities. The requirement becomes effective July 1, 1983.

Officials from the Department of Education and from colleges and universities worked with representatives of the Scholastic Aptitude Test (SAT) and the American College Testing program (ACT) to establish entry requirements for prospective teachers. These are the two tests which will be used to measure students' proficiency in basic academic skills before they are admitted to teacher training programs.

Eight Missouri students were chosen as regional finalists in the Space Shuttle Student Involvement Project, a nationwide program sponsored by NASA and the National Science Teachers Association. The program is designed to stimulate students' interest in science and technology by having them design experiments which could be carried out during a Space Shuttle mission, in the weightless environment of space.

Two of Missouri's competitors were subsequently selected as winners at the national level. They were Lloyd Bruce, a 1982 graduate of Sumner High School, St. Louis; and Douglas Hensley, a 1982 graduate of Park Hill High School, Kansas City. Their experiments may be conducted on a future Shuttle mission.

Legislation

During 1981 the 81st Missouri General Assembly (Second Regular Session) enacted about two dozen bills affecting public education. The most notable legislative actions included:

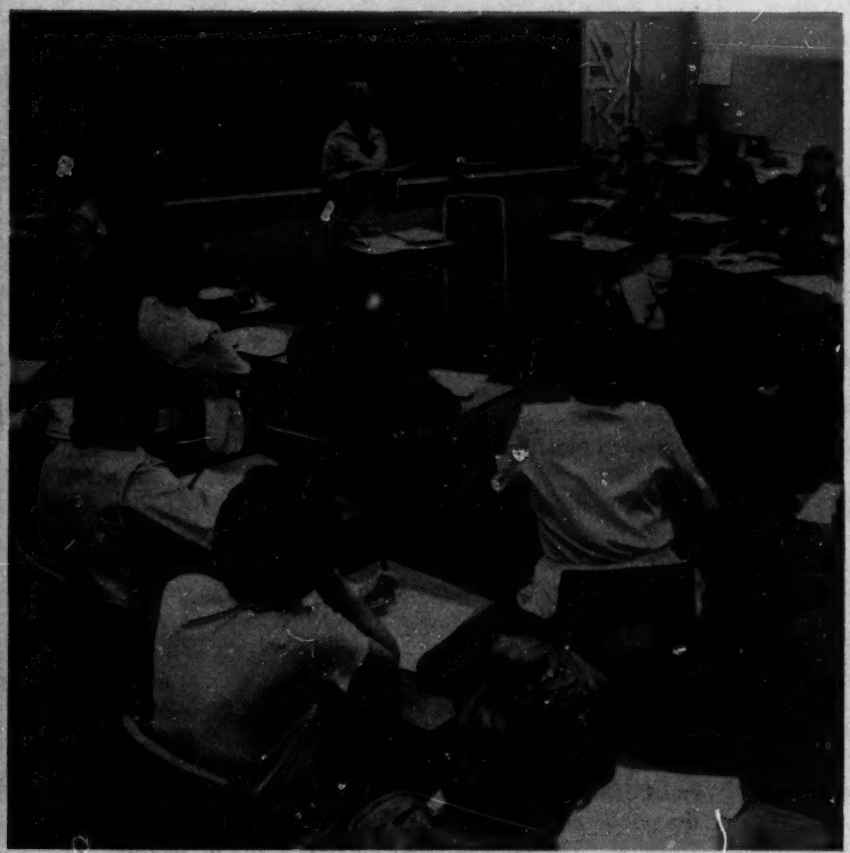
1. An increase in the state tax on cigarettes—from 9 cents to 13 cents per—pack was approved. The new tax, earmarked to benefit local public schools, went into effect August 13, 1982. State officials estimated it would generate about $20 million in new revenue during its first year. The new revenue is distributed to all school districts on a per-pupil basis through a new mechanism created by the law—the "Fair Share Fund." All revenue generated by the increased cigarette tax must be spent by local schools for teachers' salaries.

2. The Open Meetings Law (Section 610.010-610.028) governs meeting procedures of local boards of education and many other public bodies. Minor revisions were made in provisions defining meetings and records which must be open to the public and which meetings or records may be closed. The major change made during 1981 was the addition of provisions allowing penalties for violation of the law. Fines of up to $100, including damages, along with court costs and attorneys' fees may now be assessed against public officials who violate the law.

3. A requirement that teachers get an annual certificate showing that they are in good health and free of contagious disease (Section 168.131) was repealed by Senate Bill 580. Local school boards may still require such certificates.

4. The definition of a local "school term" was amended by Senate Bill 832. The new law (Section 160.011) provided a simplified definition which requires at least 174 days of actual pupil attendance for a full term.

1981 Regional Conferences Emphasize "IMS" Concept



The 1981 Regional Educational Conferences attracted a record crowd of nearly 3,500 citizens and educators. Small discussion groups, such as this one during the conference held at Sedalia, gave participants an opportunity to learn more about the State Board of Education's priority—"Instructional Management Systems."

"Instructional Management: Organizing for Excellence" was the theme for nine Regional Educational Conferences sponsored by the Department of Elementary and Secondary Education during September and October, 1981, at locations throughout the state. The State Board of Education adopted the Instructional Management System (IMS) concept as one of its top priorities for the 1981-82 school year. The Board and the Department are encouraging local school districts to adopt an IMS as a means of improving instruction—particualarly in reading and arithmetic—and conference participants expressed strong support for that effort.

Improving student achievement in basic skills has been a top priority of the State Board of Education for several years, and the emphasis on instructional management is an extension of that concern. The IMS concept, which is based on recent research about "mastery learning" and "effective schools," is intended to help teachers and school officials define instructional goals and manage classroom instruction more effectively so all students can achieve at an optimal level.

During each conference, Department staff members described the seven fundamental parts of an Instructional Management System and how teaching methods in an "IMS school" would differ from traditional practices. In small-group sessions, participants discussed the seven steps suggested by the Department for developing a management system. The small-group sessions also provided time for questions and answers about practical problems which may accompany the implementation of an IMS.

The seven characteristics of a school with an IMS are:

1. From the educational goals adopted by the district, there is a clear set of instructional objectives developed, reviewed and understood by professional staff, parents and students. These objectives should not be limited to behaviors easy to measure with a written test. Positive attitudes toward and interest in reading, for example, are just as important as demonstrated skill in reading.
2. Teachers know which objectives they are responsible to teach and have agreed upon acceptable performance standards (mastery criteria) for each objective. They are held accountable for teaching these objectives and evaluating students' performance. Time is varied to meet individual needs of students in achieving acceptable performance standards. Terminal or "outcome" objectives and implementing objectives are carefully placed in the appropriate grade levels and subject areas.
3. Resources necessary for objective-related instructional activities are identified. Teachers and principals should be able to justify allocation of instructional resources by relating the resources to objectives.
4. Budgetary provisions are made for resources needed to achieve high-priority objectives. Budget decisions are based upon objectives that are considered to be most important or where there is the greatest deficit in achievement. In the process of making these decisions, the district seeks ways of accomplishing high-priority objectives while providing for the wide variety of district needs.
5. Frequent evaluation is made to determine whether to extend or decrease the time needed by individual students for mastery of specific objectives before the student proceeds to other objectives. A system for recording and reporting each pupil's progress, by objectives, is used. A record showing which objectives each student has mastered is available so that when the student moves on to a new teacher, that teacher will know what learning activities are needed. The student and his parents also know what has been mastered and what is expected in the immediate future.
6. Activities related to assigned objectives are periodically monitored by an appropriate staff member. Responsibility for supervising in the classroom and assisting the teacher in directing learning activities toward priority objectives is clearly understood. Supervision in the classroom focuses on student performance on learning objectives.
7. An appropriate testing and assessment program is used throughout the school district. The results are used in changing instructional programs when objectives are not being optimally achieved. Periodic reassessment and evaluation of student performance in reference to the assigned objectives is conducted. Results are given to appropriate school personnel, parents and students; necessary adjustments are made.

Instructional management offers many benefits for teachers, schools, students and parents, participants learned. Because an IMS is based on specific objectives, for example, it can provide motivation for students as well as the means for improved communication with parents. The techniques used in instructional management encourage communication and coordination among teachers, in addition to providing information which allows school administrators and board members to make better decisions about instructional needs and priorities. In response to a questionnaire distributed at the conferences, almost three-fourths of the participants said they believed "An Instructional Management System can substantially improve achievement in my school district." Eighty-eight percent agreed with the statement that an IMS "can provide a basis for more meaningful communication between school and home."

The 1981 Regional Conferences were successful in helping people—educators and citizens alike—gain a better understanding of instructional management and why the State Board of Education has adopted the IMS concept as a statewide priority.

"The attendance and the high level of interest shown by participants indicate many Missourians share the State Board of Education's belief that instructional management is a promising way of improving instruction in Missouri," noted Commissioner Mallory in a report following the conferences.

Building Program Provides Modern Facilities for

The State Schools for Severely Handicapped

One of the least-known parts of Missouri's public school system is the network of State Schools for Severely Handicapped, administered by the State Board of Education.

The State Schools program was established by legislation enacted in 1957. The schools originally were known as the State Training Schools for Mentally Retarded. The first 10 schools in the system opened during the 1958-59 school year, serving 178 students with a budget of $100,000. Since that time, the State Schools have continued to change, grow and improve in order to provide appropriate educational services for all types of severely handicapped children.

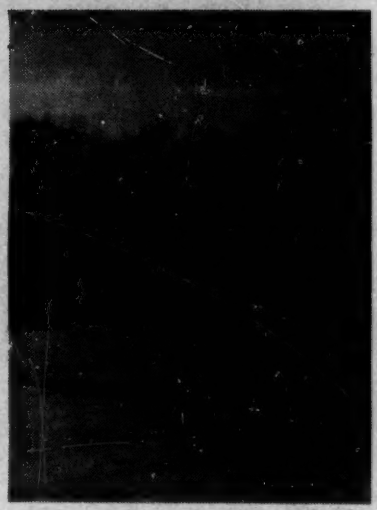
During 1981-82 there were 55 State School facilities, serving about 2,400 students, in communities across the state. The schools now serve students between 5 and 21 years of age, including those defined as trainable mentally retarded, severely and profoundly retarded, multiply handicapped, and severely behavior disordered or autistic. Day-time programs only are provided. Many of the schools serve a multi-county area, and transportation services to and from school are provided by all of the State Schools. The State Schools are financed almost totally through general revenue funds appropriated by the General Assembly.

Educational Philosophy

The severely handicapped child is a precious individual who should be prepared, as fully as possible, to live wisely and well in his environment and where society will accept him with understanding. Each child needs and has the right to special schooling which will provide him or her the skills necessary for daily living and successful adjustment to home and community life. The major goals of the State Schools are to provide training in self-care, vocational preparation, communication skills and independent living.

Referral Process

Students are referred to the State Schools for Severely Handicapped when local school districts are unable to serve their needs. When referring a child, the local district must provide all the necessary diagnostic information (such as psychological, educational and medical evaluations) plus an Individualized Education Program (IEP). Staff members of the State Schools evaluate each case to determine the most appropriate placement for the child. A child may be assigned to one of the State Schools; to a private, nonprofit educational agency approved by the State Board of



The Delmar A. Cobble State School in Columbia (above) was one of five new State Schools facilities completed during 1981-82. It is one of 27 schools built with state funds since 1968. The State Schools' building program has provided safe, modern facilities for State Schools' students and staff. In many cases, the new schools have replaced inadequate facilities such as the original State School #1 (right) at Springfield. It was the first State School in Missouri; it opened in 1958.

Facts about the State Schools

During 1981-82, about 2,400 students were served by the 55 State Schools for Severely Handicapped located throughout Missouri. The State Schools are administered by the Department of Elementary and Secondary Education (Division of Special Education), under the direction of the State Board of Education. The State Schools' central administrative office is located in Jefferson City. Regional supervisory offices are maintained in Kansas City, St. Louis, Jefferson City, Cape Girardeau and Springfield.

The Staff includes:

- 353 teachers and specialists in the field.
- 384 support-staff employees in the field.
- 36 supervisory and support personnel in the central and regional offices.
- 6 staff members working with the Sheltered Workshops program.

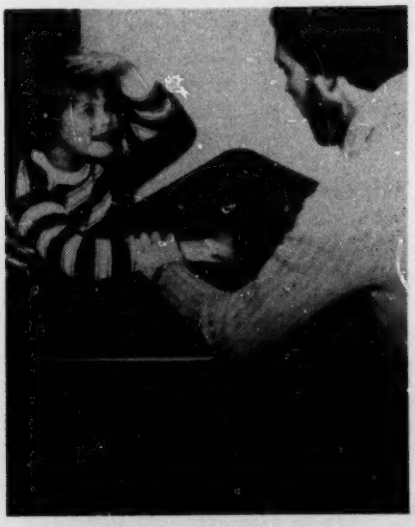
In addition to the 2,400 students served directly by the State Schools, another 293 children were served by private educational agencies during 1981-82, under contracts with the State Board of Education. The total operating budget for the State Schools and Sheltered Workshops during 1981-82 was about $15.5 million. Of that amount, about $1.8 million was from federal funds; the remainder was appropriated from state general revenue funds.

Education; or to a home-bound educational program.

Instruction

The State Schools' instructional program is designed to provide a learning environment which will lead each pupil to a more productive and satisfactory adult life, both at home and in the community. Individualized instruction is provided for each pupil. The curriculum emphasizes such areas as self-care, language and communication, sensory-motor development, interpersonal relations, arithmetic, fine arts, practical arts and occupational skills.

Throughout the curriculum, an effort has been made to develop teachers' skills in the evaluation of severely handicapped students. Criterion-referenced tests, task analysis and other techniques allow teachers to determine how well students are progressing and acquiring particular skills. Skills which will help students progress toward employment in a sheltered workshop or other community setting also are emphasized. With a specialized curriculum, small teacher-pupil ratio and a variety of support services (speech therapy, physical therapy, etc.), the State Schools' instructional program is designed to provide each student the skills necessary to live as independently and productively as possible.



The State Schools provide individualized instruction for students from 5 to 21 years of age.

Building Program

Since 1968, more than $23 million in state funds have been invested in the construction of new facilities to house the State Schools for Severely Handicapped. This building program has provided 27 new, state-owned schools which are specially designed to accomodate the severely handicapped population. Today, 85 percent of the State Schools' students attend modern facilities provided through the statewide building program.

The building program concluded during 1981-82 with the dedication of the last five State Schools facilities to be constructed. Following are the names and locations of the five newest schools, along with the dates on which they were formally dedicated: Verelle Peniston State School, Chillicothe (March 21, 1982); Oakview State School, Monett (April 4, 1982); Current River State School, Doniphan (April 18,1982); Delmar A. Cobble State School, Columbia (April 25, 1982); and the Dale M. Thompson/Trails West State School, Kansas City (May 2, 1982).

Priorities of the State Board of Education

The Missouri State Board of ducation formally adopted the llowing topics as educational orities for the 1981-82 school year.

Instructional Management Systems.

The Board encourages all school tricts to adopt an "instructional nagement system" (IMS) as a actical means of defining objectives teaching, recording the progress individual students toward the obctives and reporting student hievement in terms of the objecves. This approach may be used in subjects and grade levels. The ost productive application, wever, at least initially, is in conction with essential learning objecves—the basics.

Basic Skills.

Student achievement in basic lls—the essential tools of learn—remains a serious public conrn. Schools must continue their phasis in this area. The "instructnal management system" concept pears most promising for improvbasic skills achievement. Greater mmitment from students and inased involvement of parents also e needed for schools to meet public pectations in this area.

Vocational Education.

State and local officials st seek to expand vocational ucation opportunities for ssourians—students and adults. equate funding is essential for cational education to expand and ep pace with changing needs. cational programs also must be nned and coordinated to meet curnt and emerging labor market eds in different parts of the state.

4. Teachers' Salaries and School Finance.

Despite substantial increases in state funding in recent years, teachers' salaries have declined in terms of "buying power" and are not competitive with many other occupations. Inadequate salaries are contributing to a spreading shortage of teachers in Missouri. A large portion of state financial aid for local schools is earmarked for teachers' salaries. Thus, the issue of teachers' salaries is a major part of the overall effort to assure adequate funding for all public school programs.

5. Early Childhood Education.

The educational, social and economic benefits of early childhood education have been demonstrated repeatedly by careful research as well as by existing programs in Missouri school districts. Public schools, in cooperation with other agencies, should provide appropriate services for preschool children and their parents—particularly services which can reduce or eliminate the long-range effects of physical and mental handicaps.

IMS Progress Report

Promoting the Instructional Management System (IMS) concept was the Department of Elementary and Secondary Education's dominant activity during 1981-82. Special workshops and training sessions were provided for local school personnel throughout the year as the Department implemented this priority of the State Board.

Six introductory workshops about the IMS approach, conducted during the summer of 1981, were attended by more than 500 teachers and administrators from 150 school districts. Department staff provided special assistance to more than 80 school districts during the school year, consulting with local school personnel who were developing management systems for their districts.

The Regional Educational Conferences, sponsored annually by the Department, were a major project early in 1981-82. Nearly 3,500 citizens and educators attended these one-day meetings across the state to learn more about the IMS concept. (See the article on pages 14-15 for a summary of the Regional Conferences.)

During the summer of 1982, Department staff conducted three special "IMS Leadership Training Institutes" which were attended by about 250 principals, teachers and superintendents from 170 school districts. These were intensive, week-long training sessions designed to provide practical ideas and strategies for local school leaders to use in implementing the IMS concept. These programs were held at the "lab" schools at Southeast, Southwest and Northwest Missouri State Universities. Plans were made to repeat the Leadership Institutes during the summer of 1983 and to provide an advanced-level institute for those who participated in the 1982 program.

Overall, the IMS concept gained momentum and support throughout the year. "I believe instructional management should be Missouri's 'theme song' for the 1980s," said Commissioner Mallory in a speech to school superintendents during August of 1981.

There was a wide variety of Department-sponsored projects

related to the IMS concept during 1981-82. The Division of Urban and Teacher Education, for example, sponsored special workshops in St. Louis, Kansas City, St. Joseph and Columbia. These programs emphasized the potential value of the IMS concept for urban youth.

The Division of Special Education was involved in special projects designed to provide computerized listings of learning objectives which can be used in a management system for handicapped students. Working with the Independence School District which uses a full-size computer to manage instructional objectives and student records in its special education program, the Department adapted the system so other school districts could use it with microcomputers (such as the Apple II).

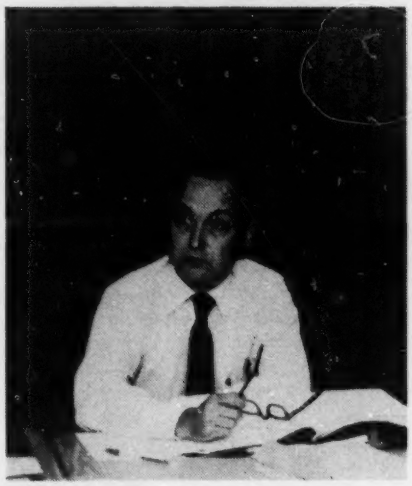
The Department's Vocational Education staff also continued working to develop a model management system which schools could use in their vocational curriculum.

Basic Skills

The efforts to promote the IMS approach also related directly to the State Board's emphasis on basic skills achievement. The Board's official statement concerning the IMS concept, for example, emphasizes the close connection between the IMS concept and basic skills.

In addition to conducting many IMS-related activities, the Department developed or published four new publications devoted to basic skills curriculum or teaching strategies.

Basic Math Skills for Missouri Students K-8 was distributed to school districts in the fall of 1981. This guide lists specific teaching objectives in a "management system" format. Many school districts used this listing of math skills (plus an earlier publication including reading skills) as the basis for establishing local objectives for an Instructional Management System.



Jimmy Robertson, a St. Joseph businessman, served as president of the State Board of Education during 1981-82.

The Social Studies-Basic Skills Connection was completed late in 1981-82 for distribution during 1982-83. This publication suggests practical ways teachers can emphasize basic academic skills at the same time they are teaching social studies content.

Kitchens are for Kids is the title of a unique series of booklets distributed to school districts during 1981-82. Intended for use in grades K-3, the series consists of "readers" for students plus guides for teachers. All of the booklets feature characters from the "Bear Family" in fun-to-read stories which stress important facts and concepts about nutrition. The series is designed to reinforce student's skills in reading and oral language and, at the same time, to provide important *content* about nutrition.

Communication Skills, a comprehensive listing of objectives in the areas of listening, speaking, writing and reading for grades K-12, was developed during the year. Production and distribution of the publication was scheduled for 1982-83.

Early Childhood Education

Reflecting the State Board of Education's continuing emphasis in this area, the Department launched two major efforts during 1981-82. These unique projects are designed to demonstrate the long-term benefits of early education—both for parents and young children. Dr. Burton White and Dr. David Weikart, two of the nation's foremost authorities on early childhood and parent education, worked with state and local education officials to establish these projects in a number of school districts.

"New Parents as Teachers" was the title given a unique project designed to provide information and assistance to first-time parents and enable them to be effective teachers of their children during the critical first three years of life. Families with first babies were enrolled in the program in the Farmington, Ferguson-Florissant, Francis Howell and Independence School Districts, beginning in January 1982. Dr. Burton White, director of the Center for Parent Education (Newton, Massachusetts), served as consultant to the program from the outset, providing preservice and inservice training to all school personnel involved.

This parent-education program is based on Dr. White's 13 years of

esearch at Harvard University on arly development and the parents' ole in the educational process. The Danforth Foundation, St. Louis, provided partial support for the program. CEMREL, Inc., a regional educatonal aboratory based in St. Louis, committed funds and staff to evaluate the program's effectiveness in detecting handicapping conditions and in fostering children's intellectual, social, and physical development from birth to age 3.

A related project, designed to help "high-risk" 3-, 4- and 5-year-olds, began during September 1981, with an intensive 35-day training program for local school personnel conducted by Dr. David Weikart and associates from the High/Scope Educational Research Foundation (Ypsilanti, Michigan). Dr. Weikart developed the "Cognitively Oriented Curriculum," a highly effective early education program. His research over the past two decades has demonstrated that programs for disadvantaged and handicapped preschoolers and kindergartners can reduce the need for special education by 50 percent and greatly increase children's chances for academic and social success. School districts that implemented the Cognitively Oriented Curriculum in new or existing programs were: Columbia, Excelsior Springs, Independence, Kansas City, Lee's Summit, Liberty, Midway Heights, Raytown, St. Joseph, University City, Wellington-Napoleon, and Seymour.

Both of these projects, designed to provide statewide leadership, were coordinated by the Department of Elementary and Secondary Education, which is planning special activities to continue the programs and expand them to include more school districts.

Salary Ranges of Missouri Classroom Teachers, 1981-82

State average salary: $16,673

Salary Ranges	Number of Teachers	Percent	Accumulated Number	Accumulated Percent
Under $9,000	3,750	7.1	3,750	7.1
$ 9,000- 9,999	1,278	2.4	5,028	9.5
$10,000-10,999	2,331	4.4	7,359	13.9
$11,000-11,999	3,466	6.6	10,825	20.5
$12,000-12,999	4,782	9.1	15,607	29.6
$13,000-13,999	4,865	9.2	20,472	38.8
$14,000-14,999	4,383	8.3	24,855	47.1
$15,000-15,999	3,986	7.6	28,841	54.7
$16,000-16,999	3,416	6.5	32,257	61.2
$17,000-17,999	3,373	6.4	35,630	67.6
$18,000-18,999	2,786	5.3	38,416	72.9
$19,000	14,308	27.1	52,724	100.0

During 1981-82 the State Board of Education recommended a plan to raise the average salary of Missouri teachers to the national average. The state average salary for teachers was about $2,400 below the national average during 1981-82. The Board called for an increase of about $340 million in state aid to local school districts over a three-year period to help close that gap.

The average salary of teachers is an often-quoted statistic, but the "average" can be misleading. Only about 50 of Missouri's 547 school districts, for example, have an average salary which equals or exceeds the statewide average. Teachers' salaries are an important issue for the State Board of Education because salary is an important factor in attracting and retaining top-quality individuals to the teaching profession. The gap between Missouri and the rest of the country has been growing in recent years. And as this chart shows, about 30,000 (or 60 percent) of Missouri's classroom teachers earned **less than the state average during 1981-82.**

Efforts related to the IMS concept and early childhood education were the major activities of the Department in carrying out Board priorities during 1981-82. There were many other programs and activities conducted by the Department which reflected the Board's primary concerns. Information concerning the Board's priority of "Teachers' Salaries and School Finance" is included in the preceding article, "The Year in Review," by Commissioner of Education Arthur L. Mallory.

	1977-78	1978-79	1979-80	1980-81	1981-82
Number of Certificates	38,141	34,427	30,379	40,321	38,227

TABLE 34
SUMMARY OF NUMBER OF SCHOOL DISTRICTS

School Year Ending June 30	School Districts		
	Total	High School*	Six-Director Elementary ±
1976	563	456	107
1977	562	457	105
1978	557	456	101
1979	556	456	100
1980	554	454	100
1981	549	456	93
1982	547	456	91

*The term high school represents districts operating both elementary and high schools.

± The term elementary represents districts operating elementary schools only.

TABLE 35
CLASSIFICATION DATA
A. SUMMARY OF SCHOOL DISTRICT CLASSIFICATION—1981-82

	AAA	AA	U	Total
Classified High School Districts	168	282	6	456*
Classified Elementary Districts	2	42	48	92
State Institutional Schools	...	...	...	10

*456 districts maintained 508 Senior High Schools; 525 districts operated Kindergartens.

B. HIGH SCHOOLS HOLDING MEMBERSHIP IN THE NORTH CENTRAL ASSOCIATION—1981-82

Public Senior High Schools	153
Public Junior High/Middle Schools	17
Public Elementary Schools	29
High Schools of State Institutions	4
Non-Public High Schools	46
Total	249

TABLE 37
SUMMARY OF COURSES OFFERED IN SUBJECT MATTER FIELDS

Number of Course Titles: There is a listing of course titles for each major area published each year (see Table 36). This number is the aggregate of that listing by area.

Duplicated Count of Students: If a student is enrolled in more than one course in a major area, the student will be counted for each course.

Percent of 9-12 Students Enrolled: This is the ratio of students enrolled in the major areas divided by fall state enrollment for 9-12 grades. The comparison of years shows activities of areas.

Year	# of Course Titles	Duplicated Count of Students	% of 9-12 Fall Enrolled
	Agriculture		
81-82	29	23,496	8.8
80-81	29	23,061	8.3
79-80	29	24,916	8.5

B. PROGRAMS DATA
a. Special Education Programs
1981-82

Category	Total Number of Children (Duplicated Count)	Total Number of Teachers	Approved Reimbursement
Aides	...	2,126.50	$4,253,000
Homebound/Contractual	2,059	...	617,771*
Orthopedic	977	90.25	893,475
Deaf And Hard of Hearing	763	95.50	945,450
Blind and Partially Seeing	200	23.00	227,700
Mentally Retarded	17,932	1,453.75	10,794,136
Speech Defective	42,879	898.75	8,897,625
Learning Disabilities	34,701	2,241.75	22,193,325
Behavior Disorders	6,199	617.00	6,108,300
Remedial Reading	N/A	(1,443.50)	(8,337,656)
Professional Personnel	...	1,011.75	4,047,000
Severely Handicapped	696	78.25	774,675
Early Childhood	1,122	82.50	816,750
**Totals	107,528	8,719.00	$60,569,207

*Paid in September 1983 for Homebound/Contractual Services during FY 1982; student count is an estimate based on previous year's average est.

**Effective FY 1982, Remedial Reading no longer administered by Special Education Section and not in totals.

b. State Schools for Severely Handicapped—Statistical Summary

Attendance Schools	Aggregate Days Membership	Days in Session	A.D.M.	Total Days Attendance	A.D.M.	No. Pupils Transported
55	429,569	174	2,409	377,248.5	2,168	2,635

c. During fiscal 1982, 81 workshops paid 4,561 handicapped workers total wages of $5,018,444, averaging $.86 per hour. State aid paid to those workshops totaled $5,587,425.

C. MISSOURI SCHOOL TRUST FUNDS

Section 162.790 (5) RSMo., authorizes the State Board of Education to accept grants, gifts, donations, or bequests for the use of the Missouri Schools for the Blind, for the Deaf, and for the Handicapped Children to deposit same in the Schools' Trust Fund in the State Treasury, or to invest such funds in stocks, bonds, deeds of trust, or any other investment securities in the amounts and in the proportions that the State Board of Education prudently selects.

The act further provides that "moneys in the School for the Blind Trust Fund or in the School for the Deaf Trust Fund or the School for the Handicapped Children Trust Fund shall not be appropriated for the support of the schools in lieu of general state revenues but shall be appropriated only for the purpose of carrying out the object for which the grant, gift, donation, devise or bequest was made," as recommended by the State Board of Education.

a. SCHOOL FOR THE DEAF TRUST FUND
BALANCE SHEET
June 30, 1982

Assets		
Cash in bank – Boatmen's National Bank of St. Louis		$ 1,210.05

Furniture and Fixtures		104,802.17
Land and Building—Recorded at cost		584,094.98
Total Assets		$3,102,688.02
Fund Balance		
Restricted Fund Balance*		$ 20,000.00
Unrestricted Fund Balance		3,082,688.02
Total Fund Balance		$3,102,688.02

*Restricted as follows: To assist graduates in starting life on self-supporting basis. Gift from Eula E. Reynard Estate.

f. SCHOOL FOR THE BLIND TRUST FUND
ANALYSIS OF CHANGES IN FUND BALANCE
July 1, 1981—June 30, 1982

Balance, July 1, 1981		$2,738,592.87
Add:		
Cash Dividends	$ 43,460.88	
Interest Received	177,639.51	
Cash Gifts—Estates	130,018.03	
Stock Gifts—Estates	29,793.02	
Gain on Sale—Investments, Land & Building	318.51	381,229.95
Less:		
Loss on Sale - Investments, Land & Building	$ 431.90	
Bank Fees	10,052.40	
Therapeutic Expense	6,646.50	
Filing Fees	3.18	
Tax Expense	.82	17,134.80
Fund Balance, June 30, 1982		$3,102,688.02

TABLE 41
VOCATIONAL REHABILITATION

A. Summary Data for Year Ending September 30, 1982

Persons Served and Rehabilitated		Average Cost	
Served	Rehabilitated	Per Case Served	Per Case Rehabilitated
34,978	6,173	$663.15	$2,341.85

B. Services and Cost to the 6,173 Clients Rehabilitated

Services	Number of Clients with Cost	Total Cost *
All Services*	5,719	$10,771,042

*The costs represent only amounts spent for services purchased by the agency. Some services have been obtained free of charge or may have been paid for, wholly or in part, by other organizations, interested individuals, or by the client himself. Excludes cost of administration, counseling, guidance and placement.

C. Jobs After Rehabilitation

Professional, Technical & Managerial Occupations	782
Clerical and Sales Occupations	832
Service Occupations	1,427
Farming, Fishery, Forestry, & Related Occupations	197
Industrial Occupations	1,638
Work in Sheltered Workshops	483
Homemakers (own home) and Other Unpaid Family Workers (own family)	814
Total	6,173

D. Earnings At Referral and At Closure for 6,173 Rehabilitants

Weekly Earnings at Referral	Number of Rehabilitants	Weekly Earnings at Closure	Number Rehabilitants
None	5,301	None	848
$01-19	26	$01-19	499
$20-39	94	$20-39	426
$40-59	118	$40-59	251
$60-79	99	$60-79	295
$80-99	77	$80-99	180
$100 +	458	$100 +	3,674
Average weekly earnings at referral	$15	Increase in average weekly earnings	$103*
Average weekly earnings at closure	$118		

*With an increase in average weekly earnings of $103 for the 6,173 rehabilitants, the total annual increase in earnings would amount to $33,062,588.

E. Disability Determinations Section processed 62,451 cases during fiscal year 1982.

TABLE 42
TESTING AND ASSESSMENT PROGRAM DATA

A. Summary of 1981-82 BEST Test

BEST	Percent Passing Test
Reading	93.8%
Math	82.9%
Govt./Econ.	85.0%
All Three Subtests	76.5%

Passing Criteria: At least 1 of 3 items correct on each of the 13 objectives and at least 75 percent of the subtest items correct.
Testing Dates: March 1-15, 1982
Total number of eighth graders taking all three Subtests—59,649
Total number of eighth grade students—61,372

B. BEST Reading/Language Arts Subtest

OBJECTIVES (Stated in Abbreviated Form)	% answering correctly at least: 1 of 3	2 of 3 (Mastery)	3 of 3
1. Identification and interpretation of medical terms	99.9	99.1	92.6
2. Identification and interpretation of labels and symbols	99.9	99.1	92.5
3. Interpetation of labels in selection for specific purpose	99.4	96.5	84.1
4. Proper response to commonly used signs	99.8	99.2	94.9
5. Use reference materials and sources to obtain information	99.4	95.3	70.5
6. Recognize main ideas	99.0	95.6	78.2
7. Note purpose of writer	99.3	95.4	77.7
8. Recognize a correctly completed form	99.3	96.1	76.1
9. Interpret business correspondence and contracts	99.4	96.4	77.4
10. Identify information in various sections of a newspaper	99.3	97.5	88.0
11. Interpretation of common documents (menu, ballot)	99.6	97.1	83.2
12. Follow written directions	99.4	98.2	93.2
13. Interpretation of graphic information	98.9	94.5	73.4
Number of students tested:		56,238	
Number of students passing this subtest:		52,725	(93.8%)

Locally Administered Objectives	Percent Passing	
14. Speak effectively in business and social situations	93.1	
15. Write sentences using acceptable grammar, punctuation, and spelling	87.8	
16. Use reference materials and sources	91.7	
17. Recognize main idea and details of an oral presentation	90.3	
18. Complete a business form correctly	91.5	
19. Communicate by reading orally	93.2	
20. Locate parts of a newspaper	91.5	
21. Follow oral and written directions	91.9	
Number of students passing	44,155	(78.0%)

C. BEST Mathemathics Subtest

OBJECTIVES (Stated in Abbreviated Form)	% answering correctly at least: 1 of 3	2 of 3 (Mastery)	3 of 3
1. Addition and subtraction of whole numbers	99.8	98.6	86.2
2. Multiplication and division of whole numbers	99.4	97.3	85.6
3. Addition and subtraction of fractions	99.7	98.7	91.5
4. Multiplication and division of fractions	98.9	93.8	72.3
5. Business and consumer transactions	97.4	89.2	64.9
6. Measurement of length, area, and volume	95.2	79.7	52.2
7. Measurement of time and temperature	98.6	91.9	55.9
8. Interpret charts, graphs, tables, maps, scale drawings	99.3	96.2	79.0
9. Ratio and proportion	98.5	94.0	77.6
10. Interpret probability and statistical statements	98.9	94.2	78.6
11. Determine averages	96.0	85.0	62.9
12. Identify horizontal, vertical, parallel, intersecting lines	98.7	93.5	77.8
13. Identify simple plane and solid geometric figures	99.0	93.8	68.8
Number of students tested:		56,237	
Number of students passing this subtest		46,624	(82.9%)

Locally Administered Objectives	Percent Passing	
14. Measure length, volume, weight, time and temperature	90.4	
15. Estimate results and answers to computational problems	89.6	
Number of students passing	48,930	(86.4%)

D. BEST Government/Economics Subtest

OBJECTIVES (Stated in Abbreviated Form)	% answering correctly at least: 1 of 3	2 of 3 (Mastery)	3 of 3
1. Understand terms such as "democracy"	99.5	97.2	85.3
2. Understand process of making, enforcing, interpreting laws	97.1	82.6	48.0
3. Understand rights guaranteed to a citizen	99.0	95.5	79.2
4. Recognize limits on individual rights and freedoms	98.8	92.8	66.9
5. Understand basic responsibilities of citizenship	99.6	97.6	89.6
6. Understand roles of government officials	98.4	85.1	50.6
7. Understand factors related to production of goods and services	98.9	95.3	78.5
8. Understand and apply information about how private business functions	98.9	94.7	80.2
9. Understand how government functions in U.S. economy	98.5	92.6	62.5
10. Predict how change in economy will result in other changes	98.6	93.7	76.2
11. Make rational personal economic decisions	98.0	92.9	78.6
12. Recognize the rights and responsibilities of consumers	98.2	94.9	83.9
13. Understand use and handling of money and investments	97.6	90.4	71.2
Number of students tested:		56,070	
Number of students passing this subtest		47,671	(85.0%)

I. Statewide Results of 1981 Fourth Grade Criterion Referenced Test

Reading

Object Statement	% Mastered	% of Correct Responses for each item		
Domain – Word Analysis				
1. Indicate the letter that is silent within a word	76	90	89	86
2. Divide a two- or three-syllable word into syllables	47	90	61	69
3. Indicate the correct plural form of a singular word	33	67	47	62
4. Identify the word that has a prefix	41	67	57	67
5. Identify the word that has a suffix	28	66	45	58
6. Identify the two words which form a contraction	83	93	90	92
7. Indicate words that are synonyms	24	68	56	47
8. Indicate words that are antonyms	28	56	52	64
9. Recognize antecedents of pronouns	45	72	72	64
Domain – Factual Comprehension				
10. Use context to determine the meaning of an unknown word	9	33	40	47
11. Use context to determine the meaning of a word with multiple meanings	39	65	66	78
12. Recognize the main idea of a passage when stated explicitly	57	71	83	76
13. Answer questions about specific details	43	59	84	73
14. Identify the sequence of events in a passage	63	77	84	81
15. Read and follow directions	42	60	67	79
Domain – Interpretive and Critical Comprehension				
16. Recognize the main idea (inferred)	10	49	40	28
17. Identify implied cause and effect relationships	13	26	75	58
18. Predict what will happen later	25	66	59	47
19. Draw conclusions	33	76	52	65
20. Identify irrelevant material	35	77	74	44
21. Interpret emotional reactions of characters	46	81	80	60
22. Interpret figurative language (in context)	45	74	69	63
23. Distinguish fact from opinion	28	58	56	46
24. Distinguish the fanciful from the real	45	81	68	63
Domain – Study Skills				
25. Describe the function of a book index, table of contents, and appendix	12	26	61	57
26. Locate words in a dictionary	23	49	38	48
27. Locate information in an encyclopedia	9	26	71	34
28. Find information using the library catalogue card	15	56	66	29
29. Read maps	20	54	65	42
30. Read a summary chart (timeline)	24	49	54	60

Average number of objectives mastered = 10.4
Average percent of objectives mastered = 35
Average percent of correct response = 62
Number of students tested = 14,638
Mean raw score = 55.86
Standard Deviation = 16.47
*Mastery = 3 of 3 items correct for an objective

Mathematics

Object Statement	% Mastered	% of Correct Responses for each item		
Domain – Numeration				
1. Determine place value of numerals through hundred thousands	53	77	63	83
2. Read numerals through one million	57	80	74	85
3. Read numerals through millions, using expanded notation	56	73	83	73
4. Round numbers to the nearest ten, hundred, thousand, ten thousand	20	42	66	67
Domain – Addition and Subtraction				
5. Add two 2-digit through 4-digit numbers, regrouping	68	87	78	87
6. Perform column addition of three 2-digit numbers, regrouping	69	84	82	82
7. Subtract 2-digit through 4-digit numbers, regrouping	35	68	45	58
8. Solve one-step word problems of addition or subtraction, no regrouping	64	87	87	72
9. Express the value of a group of coins less than $1	77	91	89	84
Domain – Multiplication and Division				
10. Multiply 1-or 2-digit numbers by 1-digit numbers through the table of 9's, no regrouping	45	57	59	57
11. Multiply 2-digit numbers by 1-digit numbers, regrouping	25	51	53	38
12. Multiply 3-digit numbers by 1-digit numbers, regrouping	19	38	48	41
13. Multiply 2-digit numbers by 2-digit numbers regrouping	4	22	24	17
14. Divide 1-or 2-digit numbers by 1-digit numbers, no regrouping or remainder	37	55	66	60
15. Divide 2-digit numbers by 1-digit numbers, regrouping and/or remainder	13	35	45	38
16. Solve one-step word problems of multiplication or division, no regrouping	29	57	43	63
17. Determine the average of a set of numbers, no remainder	2	12	10	20
Domain – Fractions				
18. Identify fractional parts of a region	38	54	65	58
19. Identify a fractional part of a set	16	27	53	54
20. Identify fractions in simplest form	27	67	48	63
21. Identify equivalent fractions	2	22	33	10
22. Add and subtract fractions with like denominators	5	18	32	32
23. Solve decimal problems with money, addition and subtraction regrouping	19	56	58	35
Domain – Geometry				
24. Distinguish among lines, line segments, rays and angles	14	48	40	54
25. Identify simple plane geometric figures	79	85	88	85
26. Find the area of simple plane geometric figures by counting squares	15	73	21	76
27. Find the perimeter of simple polygons, given dimensions of all sides	60	68	79	80
Domain – Graphs				
28. Identify points on a grid, given the coordinates	10	28	25	36
29. Interpret graphs	42	86	51	73
Domain – Time Telling				
30. Tell time by minute intervals	38	59	61	62

Average number of objectives mastered = 10.4
Average percent of objectives mastered = 35

5. Follow simple directions	85	87	84	85
6. Understand common information signs	64	87	65	40
7. Use building floor plan and schedule	69	85	79	44
8. Recall facts from handbook on safety	58	57	72	44
9. Know how to use a street guide and its map	54	39	40	52
10. Be able to fill in blanks on a form	61	73	61	48
11. Select use of product based on ingredients	75	86	86	54
12. Know how to use telephone directory	83	86	88	75
13. Know how to use a building directory	84	93	69	90
14. Identify items from a business statement	64	78	64	50
15. Know how to use an entertainment guide	74	91	44	86

art II: Norm-referenced section

he norm-referenced section of the test was normed against a national mple by Science Research Associates, Inc. (SRA), using SRA Achievement eries Scores Reading Form ES Green. The average score for the 25,487 issouri students taking this test in 1979-80 was at the 58 percentile, mpared to the national norm of 50 percent.

Mathematics

Objective: (Learner will...)	% Mastered	% of Correct Responses for each Item		
1. Know how to make change	75	72	76	76
2. Find total income from avg. weekly income	90	89	90	91
3. Calculate wages from hourly rate and hours	66	82	56	60
4. Determine and compare unit costs	42	43	45	39
5. Find take home pay from salary and deduction	68	67	68	69
6. Figure daily amounts from weekly budget	26	23	33	23
7. Find multiples of itemized weekly expenses	72	72	75	70
8. Compute a sales slip, including tax	50	48	51	50
9. Estimate weekly savings to buy an item	53	48	54	58
10. Calculate weekly wages from piecework rate	58	55	56	62
11. Compute monthly rate to repay a debt for a year	47	46	51	45
12. Compute total and average scores in sports	52	55	51	49
13. Find total materials cost from unit costs	46	40	43	54
14. Determine recipe amounts from different size groups	52	62	36	59
15. Calculate distance from time and rate	75	74	75	75

The norm-referenced section of the test was normed against a national sample by Science Research Associates, Inc. (SRA), using SRA Achievement Series Scores Math Form ES Green. The average score for the 25,577 Missouri students taking this test in 1979-80 was at the 59 percentile, compared to the national norm of 50 percent.

E. Spacial Visualization	3	29
F. Other	2	28
4. Structure		
A. Properties of Number Systems	5	27
B. Recognition of Patterns	5	32
5. Other Topics		
A. Estimation and Approximation	2	23
B. Use of SET Language	4	28

TABLE 43
SCHOOL FOOD SERVICES PROGRAM 1981-82

LEA's Approved	Schools Participating	School Enrollment	Average Daily Attendance
894	2535	923,114	811,208

CASH REIMBURSEMENT (FEDERAL)				CASH REIMBURSEMENT (STATE)		
School Lunch	Special Milk	Breakfast	Cash for Commodity Distribution	School Lunch	Value of Donated Food (Federal)	Total Federal and State Assistance
$40,763,590	$451,841	$4,055,272	$317,290	$1,905,261	$15,514,163	$63,007,417

An average of 487,681 students were served lunch daily during December, the high month for 1981-82.
55 percent of the enrollment and 62 percent of the ADA participated in the lunch program daily.
82,863,284 Type A lunches were served children.
34,300,316 lunches were served free or at reduced price to needy children.
597,489 units of government donated food were distributed.
School Food Services represented a $126.5 million industry.
Food cost amounted to $71,727,468.
$54,262,017 were paid in salaries at the local level.
